

1. Bare sand flats.
- 2a. Marram - spinifex grassland.
- 2b. Marram - lupin grass - shrubland.
- 2c. Lupin shrubland.
- 3a. Lupin - Marram - blackberry shrubland.
- 3b. Gorse - tall fescue shrub - grassland.
- 4a. Low salt meadow.
- 4b. Sea rush - Leptocarpus rushland.
5. Lagoon.
6. Raupo swamp.

Waikanae Estuary Scientific Reserve (proposed)

Area: 27.3 ha

Indicator sp? not T.P.

TREES AND SHRUBS

Native

Cassinia leptophylla
Corposma propinqua
C. repens

Cordyline australis
Myoporum laetum

Olearia solandri
Plagianthus divaricatus

7

Adventive

Chamaecytisus palmensis
Cytisus scoparius
Lupinus arboreus

Lycium ferocissimum
Populus alba

Salix fragilis
Ulex europaeus

7

CLIMBERS, LIANES ETC.

Native

Calystegia soldanella

Muehlenbeckia complexa

Tetragonia trigyna

3

Adventive

Rubus fruticosus agg.

Senecio angulata

2

GRASSES, RUSHES AND LIKE PLANTS

Native

Carex flagellifera
C. pumila
C. virgata
Cortaderia toetoe
Cyperus ustulatus
Eleocharis acuta
Juncus maritimus var. *australiensis*

Juncus pallidus
Leptocarpus similis
Scirpus pungens
Scirpus cernuus (*Isolepis cernua*)
S. fluviatilis (*Bolboschoenus*
fluviatilis)

Scirpus lacustris
S. nodosus (*Scirpoide nodosa*)
S. prolifer (*Isolepis prolifer*)
Spinifex hirsutus (Sp.?)
Typha orientalis (T. lat.)

17

Adventive

Agrostis tenuis
Ammophila arenaria
Anthoxanthum odoratum
Bromus catharticus
Dactylis glomerata

Festuca arundinacea
F. rubra
Holcus lanatus
Juncus articulatus

Juncus bufonius
Lagurus ovatus
Spartina X townsendii
Stenotaphrum secundatum

13

Native

Acaena anserinifolia
Apium australe
Atriplex sp.
Cotula coronopifolia
C. dioica ssp. *monoica*

Epilobium pallidiflorum
Hydrocotyle moschata
Lemna minor
Potentilla anserinoides
Ruppia megacarpa

Samolus repens
Sarcocornia quinqueflora
Sonchus littoralis
Triglochin striatum

14

Adventive

Achillea millefolium
Anagallis arvensis
Beta vulgaris
Brassica campestris
Cirsium vulgare
Conium maculatum
Cotula australis
Crepis capillaris
Erigeron canadensis
Foeniculum vulgare
Fumaria officinalis
Galium aparine

Geranium molle
Hypochaeris radicata
Leontodon autumnalis
Lotus pedunculatus
Nasturtium officinale
Oxalis sp.
Parentucellia viscosa
Plantago coronopus
P. lanceolata
P. major
Ranunculus scleratus
R. repens

Rumex acetosella
R. conglomeratus
R. obtusifolius
Sagina procumbens
Senecio elegans
S. jacobaea
Solanum sublobatum
Sonchus asper
S. oleraceus
Trifolium repens
T. subterraneum
Vicia sativa

16

Native

Azolla rubra

Pteridium esculentum

2

BIRDS

Antarctic fulmar
Antarctic prion
Arctic skua
Australian bittern
Australian gannet
Australasian harrier
banded dotterel
blackbird
black-billed gull
black-fronted tern
black shag
black swan
blue penguin
blue petrel
broad-billed prion
Buller's shearwater
Cape pigeon

Caspian tern
chaffinch
diving petrel
eastern bar-tailed godwit
eastern little tern
fairy prion
flesh-footed shearwater
fluttering shearwater
giant petrel
goldfinch
greenfinch
grey duck
greywarbler
hedge sparrow
house sparrow
Hutton's shearwater
Kerguelen petrel

knot
lesser broad-bill prion
little black shag
little shag
mallard
mottled petrel
narrow-billed prion
New Zealand dabchick
New Zealand kingfisher
New Zealand pipit
New Zealand shoveler
North Island fantail
northern blue penguin
paradise duck
pheasant
pied shag
pied stilt

BIRDS (Continued)

pomarine skua	song thrush	welcome swallow
pukeko	sooty shearwater	white-backed magpie
red-billed gull	southern black-backed gull	white faced heron
redpoll	South Island pied oystercatcher	white-fronted tern
reef heron	spotless crake	white-headed petrel
rock pigeon	spotted shag	white heron
short-tailed shearwater	spur-winged plover	wrybill
shy mollymawk	starling	yellow-eyed penguin
silvereye	turnstone	yellowhammer
skylark	variable oystercatcher

MAIN HABITATS AND FEATURES (Continued)

5. The lagoon in the sand flats contains horse's mane weed and supports a flora of algae including *Enteromorpha intestinalis* and *Ulva lactuca*. Some plants of the introduced cord grass *Spartina x townsendii* have established in the lagoon but have not spread noticeably in the last five years.
6. Lake Puketewhaino at the southern end of the reserve is the largest fresh water lake in the Waikanae estuary (the other three freshwater lakelets are not reserved). It contains areas of open water but most of the lake is occupied by raupo. *Scirpus lacustris*, *Eleocharis acuta* and *Carex virgata* are common around the edges. A few plants of crack willow are found on the western edge of the lake. The floating pond weeds *Azolla rubra*, *Lemna minor* and *Spirodella oligorrhiza* are present on the lake.
